

On Line Court Reservations

Is your club still operating a paper-based court booking system...relying on someone at the other end of a phone?

Do your members have to travel to the club to book or cancel a court?

Is everyone getting fair access to the courts?

Do you have a problem with 'no shows'?

ACEBOOK will take your club into the 21st century with an on line booking system that is simple to use, profitable for your club and which offers a range of background services to help with club administration and planning.

ACEBOOK offers your club members a state of the art, court reservation facility, from the comfort of their own home, at work or on the road...for tennis, badminton, squash or racquetball.

The originators of ACEBOOK created this system for their own club because of the cumbersome booking system in place. Since its introduction it has revolutionised the club...both for the players and behind the scenes.

This system is now being offered to clubs nationally and internationally.

Benefits

A secure and reliable service that is available 24/7 from your home, from work or on your mobile phone. It ensures optimal court usage and limits 'no shows'.

Court reservation rules can be customised to suit each clubs needs.

Advertising opportunities on the busiest page on your site will pay for the service and even provide extra revenue. These adverts will be seen by everyone who books a court, they can be changed as often as you like, offering your advertiser real value for money.

Use the facility to communicate with your members either through the 'Club Message Board' on the booking page, or by email or SMS.

Clubs can use the information gathered through the booking system to help with long term planning and strategy.

Features

E mail confirmation and reminder will be sent to the booker.

Statistical reports can be published to allow for better club management and planning

Weather information available for your local area.

SMS reminder on the day of play (optional subscription service)

Internal club ladder (optional extra, in development)

Clubhouse 'check in' facility (optional extra, with touch screen tablet)

With the touch screen tablet, clubs can operate a 'check in' policy for all players before they play. This will help minimise the problem of 'no shows' ensuring best use of your courts.

Players coming off a court can use the tablet to book their next game before they leave the club and players turning up to see if a court is free, can check on screen in real time.

The system offered by ACEBOOK at this time is packed with fabulous features that every club in the country will welcome, and still the originators are working to add to it. In the near future your club can have an online internal club ladder that will allow for instant result updates and automatic ladder placement. No paperwork needed!

ACEBOOK are currently talking to coaches nationwide to determine if they can provide club coaches with an on line service that would benefit them and their customers.

To see the booking system and to test it, please go to www.bookacourt.net . Click on 'live demo'. To see what an authorised committee member can do the Username is 'acebook' and password is 'committee'. This will show you how the committee can control coaching and competition bookings. To view a members access, the username is 'acebook' and the password is 'member'.

For more information you can email through the web site or to michael@bookacourt.net or call Michael Mc Daid on 00353 87 6776304.

We joined our clubs to play tennis...not run an office. So lets get back on the courts and let ACEBOOK handle the rest.
